# City Water Filter FC-1000

# Improve your water at every tap

Reduce the chlorine taste and odor at every faucet and protect your plumbing with the A. O. Smith Pro FC-1000 City Water Filter with Scale Control Media.

## System Features & Benefits:

- **Coconut Shell Activated Carbon** reduces chlorine and delivers great tasting and smelling water to every fixture
- **Scale Control Media** uses salt-free technology to reduce scale build up in plumbing systems and hot water appliances without the use of additional chemicals or salt
- **Low maintenance system** with no electricity or drain line required
